Subject: WLOS Request RE: CTS Relocation - WLOS questions

Davina,

Per the FOIA and all related public records laws; please provide WLOS a detailed account of all funds spent, an itemized list indicating the exact amount spent on each item and the purpose for which that money was spent regarding 'Relocation expenses in connection to the CTS of Asheville Site', as is referenced in your November 18th, 2014 response to WLOS below:

"EPA budgeted \$625,000 for temporary relocation expenses for the three households. Approximately \$230,000 has been spent so far by our emergency response contractor and the USACE providing relocation assistance to the three households. EPA recently provided an additional \$30,000 to the USACE."

We look forward to your response and feel free to contact me with any questions,
Regards,

Mike Mason
